CHAIRMAN'S REVIEW

In my Interim report on 10 March of this year I outlined the changes that had taken place in our investments in Sterling Energy Plc ("Sterling") and Desire Petroleum Plc ("Desire"). The accounts for the year 30 June 2010 now reflects these changes which have resulted in a profit of £1,612,003 on the sale of part of our holdings in both companies. You will also notice the change in presentation due to our adoption of the new requirements of the International Financial Reporting Standards as adopted by the European Union. Attached to this report is a table summarising the changes in our holdings of Desire, Sterling and Argos during this financial year and to 1 October 2010.

Desire Petroleum Plc and the Falklands Exploration Programme.

With the arrival of the Ocean Guardian rig in the Falklands in February of this year, drilling has at last recommenced in the North Falkland Basin and to date the drilling results of the first three wells in the region have been announced. Desire's first well "Liz" failed to encounter oil but encountered gas and gas condensates and thus was disappointing. Further appraisal of the drilling information is now being carried out by the company. However, Rockhopper Exploration Plc's first well "Sea Lion" resulted in an exciting oil discovery with a potential field of in excess of 240 millions barrels in place. This has created great interest in the North Falkland Basin and a resulting overall rise in the share prices of all the participants in this area. Rockhopper Exploration Plc's second well "Ernest" in the Southern area of the North Falklands Basin was not successful and has been plugged and abandoned.

The success of the "Sea Lion" discovery is very encouraging and at present the rig is back on site and has carried out further testing and evaluation. Desire's next well, "Rachel" was spudded on 27 September and the drilling campaign is expected to take another 35 days. In addition, Desire has a four to six month well programme covering a number of prospective targets within their licence area. This campaign, if all six wells are drilled could extend in the second quarter of 2011.

We shall be constantly reviewing our holding in Desire through this period and we currently hold 3.200 million shares. The resulting profit on the sale Desire shares during the financial year is reflected in our increased cash balance at the year end.

Sterling Energy Plc

The drilling of the well in Sangaw West in Kurdistan, Iraq has encountered numerous geological difficulties which has slowed its progress as well as problems with the Sakson Rig. On 20 September, Sterling announced that they had reached a depth of 2,395 meters and the results were disappointing with a consequent effect on the share price resulting in the Company's investment dropping by £1,177,000 to £1,001,250 at 1 October 2010. They propose to continue to drill down to a depth of 3,660 meters during the fourth quarter of 2010. The results of this drill could have a material impact on the share price. We have, over the past six months, reduced our holding to 1.5 million shares from 1.635 million shares.

Cash Balances and Investment in Argos Resources Plc ("Argos")

As at the date of this statement Westmount has £2.3 million of cash on deposit with our bank. In this period of very low interest rates and continuing financial uncertainty your Board has decided to hold the funds on short term deposits rather than invest in bonds or other financial instruments. It is our intention to make further capital distributions as we liquidate substantial parts of our larger investments. Our lower investment income reflects the exceptionally low interest rates prevailing at present.

Subsequent to the year end we have participated in the fund raising by Argos, subscribing for 1,290,322 shares at 31p and subscribed for 444,450 Desire shares in the Placing announced on 28 September. Argos holds licences for acreage in the North Falkland Basin previously held by Lasmo Petroleum Plc when they drilled in that area in 1998. The Board views their acreage which is adjacent to Rockhopper's and Desire's as potentially very interesting.

The Future

Westmount's investee companies, Desire and Sterling are in the middle of important drilling campaigns in both the Falklands and Kurdistan and the results will have a major impact on our investments. Both the Falklands and Kurdistan have the potential to be substantial oil discoveries. The news flow over the next few months will be of great importance to the Company's future. It remains the Boards' intention, in the absence of any other proposals to distribute the proceeds of our share sales to shareholders as repayments and the forthcoming year will hopefully see the results of this policy.

**DIRECTORS' REPORT
FOR THE YEAR ENDING 30 JUNE 2010**

The Directors present their annual report and the audited financial statements of Westmount Energy Limited (the "Company") for the year ended 30 June 2010.

PRINCIPAL ACTIVITIES

The principal activity of the Company is, and continues to be, investment holding. Development of the Company's activities and its prospects are reviewed in the chairman's review on pages 3 and 4.

The Company was incorporated in Jersey on 1 October 1992 under the Companies (Jersey) Law 1991, as amended, and is a public Company with registered number 53623.

The Company is not resident in the United Kingdom and is, therefore, not a close Company within the meaning of the United Kingdom Income and Corporation Taxes Act 1988.

DIRECTORS AND DIRECTORS' INTERESTS

The Directors during the year and subsequently to the date of this report were as follows:

P J Richardson
M S D Yates
P R Anderson
M Bradlow (Non-Executive Chairman)

The Company does not have any service contracts with the Directors. However, Ridge House Resources Limited, a company in which the late D G Williams was interested, is entitled to a commission of 3% of profits arising from the Company's current interest held through Desire Petroleum Plc. Commission paid during the year amounted to £56,082 (2009: £12,291) of which £50,684 (2009: £6,460) was outstanding at the year end.

The Directors, from time to time, are entitled to an aggregate bonus calculated at 5% of the gross profit realised from any sale of shares in Sterling Energy plc.

RESULTS AND DIVIDENDS

The result for the year is set out on page 9 in the Statement of Comprehensive Income. The Directors do not recommend the payment of a dividend in respect of these financial statements (2009: £Nil). Further details on the Company's activities during the year have been set out in the Chairman's Review.

AUDITORS

In the case of each of the persons who are Directors at the time when the report is approved, the following applies:

- so far as the director is aware, there is no relevant audit information (information needed by the Company's auditors in connection with preparing their report) of which the Company's auditors are unaware, and
- each Director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant information and to establish that the Company's auditors are aware of that information.

The auditors, Moore Stephens, have indicated their willingness to continue in office, and a resolution that they be re-appointed will be proposed at the next general meeting.

POLICY AND PRACTICE OF PAYMENT OF CREDITORS

The Company does not follow any specified code or standard on payment practice. However, it is Company policy to settle all debts owing on a timely basis, taking account of the credit period given by each supplier. The Company has few trade creditors and the majority of year end creditors were due to professional advisers. For this reason, the Directors consider that the publication of the number of creditor days would not provide meaningful information.

The Company held no beneficial interest in shares of the company through related parties.

ANNUAL GENERAL MEETING NOTICE – SPECIAL BUSINESS

The annual renewal of the general authority of the Company to purchase up to ten per cent of its issued shares on a stock exchange is included as special business at the Annual General Meeting.

INTERNATIONAL FINANCIAL REPORTING STANDARDS

During the year ended 30 June 2010, the Directors have decided to make the transition from using United Kingdom Accounting Standards (UK GAAP) to International Financial Reporting Standards ("IFRS") as adopted by the European Union. The first complete set of IFRS compliant financial statements have been prepared for the year ending 30 June 2010. The Directors have considered the implications of adopting IFRS on the June 2009 and June 2008 comparatives and have adjusted them accordingly. The significant changes to the comparatives are summarised in the notes to the financial statements.

**DIRCTORS' REPORT (Continued)
FOR THE YEAR ENDING 30 JUNE 2010**

STATEMENT OF DIRECTORS RESPONSIBILITIES WITH REGARD TO THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Jersey Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and applicable law. Under company law the directors must prepare financial statements that give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS as adopted by the European Union;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

STATEMENT OF PERSONS RESPONSIBLE WITHIN THE ISSUER

With regard to Regulation 2004/109/EC of the European Union (the "EU Transparency Directive"), the Directors of the company whose names appear on page 5 confirm to the best of their knowledge that the audited financial statements for the year ended 30 June 2010 give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company as required by the applicable accounting standards. The Report of the Directors gives a true and fair review of the development of the Company's business, financial position and the important events that have occurred during the financial year and their impact on the financial statements. The principal risks and uncertainties faced by the Company are disclosed in Note 11 of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
WESTMOUNT ENERGY LIMITED**

We have audited the financial statements of Westmount Energy Limited for the year ended 30 June 2010 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity, the Statement of Cash Flows and the notes 1 to 16. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members in accordance with Article 110 of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's [(APB's)] Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements.

Opinion on financial statements

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2010 and of its comprehensive income for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies (Jersey) Law 1991.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2010**

1. GENERAL INFORMATION AND STATEMENTS OF COMPLIANCE WITH INTERNATIONAL FINANCIAL REPORTING STANDARDS AS ADOPTED BY THE EUROPEAN UNION

Westmount Energy Limited (the “Company”) operates solely as an energy investment company. The investment strategy of the Company is to provide seed capital to small companies that are identified as having significant growth possibilities. These investments are usually sold subsequent to flotation or when a significant third party offer is available, which values such a stake as attractive both for price and market reasons.

The Company was incorporated in Jersey on 1 October 1992 under the Companies (Jersey) Law 1991, as amended, and is a public Company with registered number 53623.

The Company was incorporated and is domiciled in Jersey, Channel Islands. The Company is listed on the London Stock Exchange Alternative Investment Market (AIM).

The financial statements have been prepared under the historical cost convention with the exception of investments measured at fair value and are in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union, including standards and interpretations issued by the International Accounting Standards Board (IASB). These are the Company's first financial statements prepared in accordance with IFRS (see note 14 for explanation of the transition to IFRS).

The financial statements for the year ended 30 June 2010 (including comparatives) were approved by the board of directors on 4 October 2010.

2. ACCOUNTING POLICIES

The significant accounting policies that have been applied in the preparation of these financial statements are summarised below. These accounting policies have been used throughout all periods presented in the financial statements, except where the Company has applied certain accounting policies and exemptions upon transition to IFRS. The exemptions applied by the Company and the effects of transition to IFRS are presented in note 14.

Basis of Preparation

First time Adoptions of IFRS

The Company has elected to adopt IFRS 1 ‘First-time adoption of International Financial Reporting Standards’ (Revised 2008) and has restated retrospectively the opening Statement of Financial Position at 1 July 2008 and 30 June 2009 by applying the IFRS’s in force at 30 June 2010. Full details of the restatement are detailed in note 14.

IFRS 1 (Revised 2008) changes only the structure of the standard and its paragraph references. The revised version does not change any of the technical requirements of the standard, and therefore has no effect on first-time application of IFRS.

IFRS 1 was amended in July 2009 to introduce additional optional exemptions for first-time adopters, none of which are applicable to the Company.

The impact of the adoption of the amended IFRS 7 has been to expand the disclosures provided in the financial statements with regards to classification of financial instruments using the fair value hierarchy.

The impact of the adoption of IAS 1 has been presentational changes in respect of the primary statements which include the statement of comprehensive, statement of financial position, statement of changes in equity and statement of cash flows of the current year and prior period.

The preparation of financial statements in conformity with IFRS requires the use of accounting estimates and exercise of judgement by the management while applying the Company’s accounting policies in relation to the value of options issued, as set out in note 10. These estimates are based on the management’s best knowledge of the events which existed at the date of issue and the balance sheet date however, the actual results may differ from these estimates.

NOTES TO THE FINANCIAL STATEMENTS (*continued*)
FOR THE YEAR ENDED 30 JUNE 2010

2. ACCOUNTING POLICIES (*Continued*)

Presentation of Financial Statements in accordance with IAS 1 (Revised 2007)

The financial statements are presented in accordance with IAS 1 'Presentation of Financial Statements' (Revised 2007). The Company has elected to present the 'Statement of comprehensive income' in a single statement.

In accordance with IFRS 1, the Company presents three statements of financial position in its first IFRS financial statements. In future periods, the Company presents two comparative periods for the statement of financial position only when it: (i) applies an accounting policy retrospectively, (ii) makes a retrospective restatement of items in its financial statements, or (iii) reclassifies items in the financial statements.

In the current year Improving Disclosures about Financial Instruments (Amendments to IFRS 7 'Financial Instruments: Disclosures'), IAS 1 (revised) 'Presentation of Financial Statements' and IAS 32 (revised) 'Financial Instruments: Presentation' were issued. They are effective for annual reporting periods beginning on or after 1 January 2009.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

At the date of the authorisation of these financial statements, the following new standards, amendments and interpretations to existing standards have been published but are not yet effective and have not been adopted early by the Company. The standards below are not expected to affect the financial position of the Company, however they will require additional disclosure in the future financial statements.

- IAS 1 (improvements to IFRSs 2010) Presentation of Financial Instruments, effective for annual periods beginning on or after 1 January 2011
- IFRS 9 (revised April 2009) Financial Instruments – Classification and Measurement, effective for annual periods beginning on or after 1 January 2013

Foreign currency

a) Functional and presentational currency

The functional currency of the Company is United Kingdom Sterling, the currency of the primary economic environment in which the Company operates. The reporting currency of the Company for accounting purposes is also United Kingdom Sterling ("Sterling").

b) Transactions and balances

Foreign currency monetary assets and liabilities balances are translated into United Kingdom Sterling at the rate of exchange ruling on the last day of the Company's financial year. Foreign currency transactions are translated at the exchange rate ruling on the date of the transaction. Gains and losses arising on the currency translation are included in administrative expenses in the statement of comprehensive income in the year in which they arise.

Financial assets

The Company classifies its financial assets in the following categories:

- at fair value through profit or loss; and
- loans and receivables

The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

a) Financial assets at fair value through profit or loss

The Company designates its financial assets as at fair value through profit or loss (FVTPL) as the financial assets are managed on and their performance is evaluated on a fair value basis. Financial assets carried at fair value through profit or loss are initially recognised at fair value and any transactions costs are recognised in the statement of comprehensive income. Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Company commits to purchase or sell the investment.

**NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2010**

2. ACCOUNTING POLICIES (Continued)

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all the risks and rewards of ownership. Financial assets at fair value through profit or loss are subsequently carried at fair value. Any gains or losses on derecognition of investments is calculated after setting the proceeds against the fair value and, in respect of a part disposal, against the fair value at the date of sale. The surplus or deficit on realisation is transferred to the statement of comprehensive income.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' are presented in the statement of comprehensive income in the period in which they arise.

b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets and are stated at cost, which is equivalent to their fair value. The Company's loans and receivables comprise 'trade and other receivables' and 'cash and cash equivalents'.

Financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks. For the purpose of the Statement of Cash Flow, cash and cash equivalents are considered to be all highly liquid investments with maturity of three months or less.

Trade and other payables

Trade and other payables are not interest bearing and are stated at their cost, which is equivalent to fair value.

Equity, reserves and dividend payments

Ordinary shares are classified as equity. Share premium includes any premiums received on issue of share capital. Transaction costs associated with the issuing of shares are deducted from share premium. Retained earnings include all current and prior period retained profits. It also includes charges related to share-based employee remuneration.

Revenue Recognition

Revenue comprises interest income from short term deposits and is recognised on an accruals basis.

Expenditure

The expenses of the Company are recognised on an accruals basis in the statement of comprehensive income.

Share options

Awards of share options are recorded under IFRS 2: 'Share-based Payment'. The cost of the share options are ascribed a fair value at grant date and accounted for as an administration expense of the Company with an equal Share Option Reserve being created in the statement of changes in equity. The cost is recognised in the statement of comprehensive income over the vesting period of the award.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand together with cash deposits with a maturity of less than three months and which are subject to an insignificant risk of changes in value.

3. TAXATION

Effective 1 January 2009, Jersey's tax regime changed. The new regime imposed a general corporate income tax rate of 0%, a 10% rate applies to certain regulated financial companies and a 20% rate applies to utilities and income from Jersey land (i.e. rents and development profits). Jersey registered companies are treated as resident for tax purposes and are subject to zero or ten percent standard income tax. The effect of the new tax regime is that the Company is subject to income tax at 0%.

The Company is registered as an International Services Entity under the Goods and Services Tax (Jersey) Law 2007 and a fee of £100 has been paid, which has been included in administrative expenses.

4. EARNINGS PER SHARE

The calculation of basic earnings per ordinary share is based on the comprehensive income for the year of £4,328,491 (2009: loss £1,721,763). The weighted average number of shares in issue during the year was 6,980,300 (2009: 6,983,273). As explained in note 10 there are share options in issue over the Company's ordinary shares. As the exercise price of all these options at 30 June 2010 was below the average market price of the ordinary shares during the year, they are deemed to have a dilution effect on earnings per share (EPS) and diluted earnings per share are consequently disclosed separately. The weighted average number of shares for diluted EPS were 7,366,474 (2009: 7,287,933).

5. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (Continued)

On 30 June 2010 the market value of the company's holding of 3,674,000 (2009: 4,500,000) ordinary fully paid shares in Desire, representing 1.13% (2009: 1.96%) of the issued share capital of the company, was £3,306,600 (2009: £2,025,000) (90.00p per share, (2009: 45.00p per share)). During the year, the Company disposed of 2,456,610 (2009: 700,000) ordinary shares in Desire, realising a profit of £1,869,406 (2009: £215,328) (after expenses) which is included in the statement of comprehensive income.

On 30 June 2010 the market value of the company's holding of 1,500,000 (2009: 31,500,000) ordinary fully paid shares representing 0.68% (2009: 1.35%) of the issued share capital of Sterling was £2,178,750 (2009: £699,300) (145.25p per share, (2009 2.22p per share)). On 23 December 2009, Sterling consolidated its issued shares replacing every 40 shares held in the company with one share.

During the year, the Company disposed of 25,082,601 ordinary shares in Sterling prior to the consolidation and 135,815 after (2009: nil), realising a loss of £257,403 (2009: £nil) (after expenses) which is included in the statement of comprehensive income.

During the year the Company did not issue any further shares. On 30 January 2009, following the sale of the Company's shares in Eclipse Energy plc, the company issued 6,980,300 fully paid redeemable "B" shares of 1p each ranking parri passu with existing shareholdings to enable the return of capital to shareholders of the company equivalent to 65p per ordinary share (£4,597,358 in aggregate). These "B" shares were redeemed on 6 February 2009.

As at 30 June 2010, options were outstanding over 800,000 (2009: 640,000) ordinary 20p shares, with a weighted average exercise price of 44.28p (2009: 32.87p). The options are exercisable at the election of the option holder, over various periods expiring 31 December 2016. Of the 150,000 options held by former nominated advisor Ruegg & Co Limited, 60,000 options were deemed to have lapsed as at 30 June 2009 for accounting and valuation purposes as these could only be exercised upon a change of control of the Company prior to 20 September 2009. The remaining 90,000 options were not exercised and therefore lapsed on 20 September 2009.

As at 30 June 2010 450,000 (2009: 480,000) of the options were exercisable at a price of 38.5p (2009: 38.5p), 100,000 (2008: 100,000) of the options were exercisable at a price (adjusted) of 26p (2009: adjusted 26p) and 250,000 (2009: nil) of the options were exercisable at a weighted average exercise price of 62p. The share options are ascribed a total expense for the year ended 30 June 2010 of £32,847 (2009: £23,852).

**NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2010**

10. SHARE PREMIUM AND SHARE OPTIONS (Continued)

The options granted up to June 2009, were re-priced by a deduction of 65 pence from the original grant price to take into account the return of capital made to shareholders by the issue and redemption of B shares made during the financial year. The deduction of 65 pence accorded with the advice received by the Board from Ruegg & Co Limited.

Share options were granted during the year over 250,000 shares at a weighted average price of 62p (2009: nil). The fair value of options granted was £128,111 and was calculated using the Black Scholes valuation model. At the date of grant the volatility of the Company was estimated as 40.2651% and was calculated as the standard deviations of daily historical continuously compounded returns over a period commensurate with the expected life of the options, back from the date of grant, and annualised by the factor of square root 252, assuming 252 trading days per year. The risk-free rate was 2.81815% and is the yield to maturity on the date of grant of a UK Gilt Strip, with term to maturity equal to the life of the option. The expected life of the options is 5.14 years and is estimated as the mid-point between the date of grant and the date of expiry of the option.

11. FINANCIAL RISK

The Company's investment activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

a) Market Risk

i) Foreign exchange risk

The Company is not exposed directly to foreign exchange risk as it invests in companies listed on the London Stock Exchange, denominated in Sterling and has cash balances denominated in Sterling.

ii) Price Risk

Price risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate due to changes in market prices. The Company is exposed to price risk on the investments held by the Company and classified by the Company on the balance sheet as fair value through profit or loss. To manage its price risk Management closely monitor the activities of the underlying investments.

The Company's exposure to price risk is as follows:

	Cost	Fair Value
Fair Value Through Profit or Loss, as at 30 June 2010	3,670,017	5,485,350
Fair Value Through Profit or Loss, as at 30 June 2009	3,955,537	2,724,300

The Company's investments are all publicly traded and listed on the Alternative Investment Market ("AIM"). The Company's sensitivity to a 15% increase/(decrease) in market price would be £822,803 / (£822,803) (2009: £408,645 / (£408,645)). A positive number indicates an increase in the net assets attributable to ordinary share holders and a negative number indicated a decrease. The 15% increase/(decrease) on the net assets attributable to ordinary share holders would have the same impact on the post tax profit for the year. 15% represents management's assessment of a reasonably possible change in the market prices.

iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not significantly exposed to interest rate risk as it does not have any borrowings, however, the Company does have short term (<3 months) cash deposits, which exposes the company to effects of fluctuations in the prevailing levels of market interest rates on its cashflow.

An increase in the interest rates of 1% would cause the Company's net financial assets to increase by £23,912 (2009: £7,467). An equal change in the opposite direction would have decreased the net assets attributable to shareholders by an equal but opposite amount. 1% represents the Management's assessment of a reasonably possible change in interest rates.

**NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2010**

11. FINANCIAL RISK (Continued)

The following table summarises the Company's exposure to interest rate risks.

Interest rate risk profile

As at 30 June 2010

	Up to 1 year	Over 1 year	Non-interest bearing	Total £

Liabilities				
Trade and other payables	127,292	-	45,085	172,377

b) Credit Risk

Credit risk is the risk that an issuer or counterparty will be unable or unwilling to meet commitments it has entered into with the Company. The carrying amounts of the financial assets best represent the maximum credit exposure at the end of the reporting period. This also relates to the financial assets carried at cost, as they have a short term to maturity.

The Directors do not believe the Company is subject to any significant credit risk exposure regarding investments and trade receivables. The credit risk for cash and cash equivalents is considered negligible, since the counterparty is a reputable bank with high quality external credit ratings.

At the end of the reporting period, the Company's financial assets exposed to credit risk amounted to the following:

	2010 £	2009 £
Investments at Fair Value Through Profit or Loss	5,485,350	2,724,300
Trade receivables	7,015	10,540
Cash and cash equivalents	2,515,599	873,656
	<u>8,007,964</u>	<u>3,608,496</u>

The Company considers that all the above financial assets are not impaired or past due for each of the reporting dates under review and are of good credit quality.

c) Liquidity Risk

Liquidity risk is the risk that the Company cannot meet its liabilities as they fall due. The Company's primary source of liquidity consists of cash and cash equivalents and investments held at fair value through profit or loss. The Company's investments at fair value through profit or loss are publicly traded and are deemed highly liquid. The Company also has the ability to issue additional share capital to facilitate the capital management of the Company.

Capital Management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide optimum returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

In order to maintain or adjust the capital structure, the Company may issue new shares, return capital to shareholders or sell assets. The Company does not have any debt nor is the Company subject to any external capital requirements.

Fair Value Estimation

The Company has classified its financial assets as fair value through profit or loss. The Company adopted Improving Disclosures about Financial Instruments (Amendments to Financial Instruments: Disclosures) (IFRS 7) effective from 1 July 2009. This establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under IFRS 7 are as follows:

Level I – An unadjusted quoted price in an active market provides the most reliable evidence of fair value and is used to measure fair value whenever available. As required by IFRS 7, the Company will not adjust the quoted price for these investments, (even in situations where it holds a large position and a sale could reasonably impact the quoted price).

Level II – Inputs are other than unadjusted quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies.

Level III – Inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation.

The investments held by the Company fall within Level 1 as they are valued by unadjusted quoted prices.

The Company does not employ any staff except for its Board of Directors. The Company does not contribute to the pensions or any other long-term incentive schemes on behalf of its Directors.

During the year, 250,000 share options were granted to Directors and these have been discussed further in note 10 (2009: £nil). The Directors' remuneration is included within administration expenses in the statement of comprehensive income.

At the year end the Company owed £1,250 (2009: £1,250) to the directors in respect of commissions on the sale of shares in Sterling Energy Limited.

13. RELATED PARTIES

During the year, legal and professional fees totalling £3,800 (2009: £15,158) were paid to Ogier, a firm in which M S D Yates, one of the Company's directors is a partner, in respect of services charged on an arms length basis as the Company's legal advisors.

Company secretary fees of £42,242 (2009: £42,785) were paid to Bedell Secretaries Limited, a firm in which Mr Anderson, one of the Company's directors is a senior manager.

At year end the Company did not have any fees outstanding with Ogier in respect of legal and professional fees (2009: £2,171).

The preparation of financial statements of the Company is undertaken by Dominion Corporate Services Limited of which P J Richardson one of the Company's directors is a key employee. During the year fees totalling £4,000 (2009: £nil) were paid to Dominion Corporate Services Limited and £8,000 (2009: £nil) was accrued at the year end.

Fees paid to the directors are disclosed in note 12.

14. FIRST-TIME ADOPTION OF IFRS

During the year the Company has changed its accounting framework from United Kingdom Accounting Standards (UK GAAP) and prepared these financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union. The date of transition to IFRS is 1 July 2008. The Company's IFRS accounting policies presented in note 2 have been applied in preparing the financial statements for the year ended 30 June 2010 and retrospectively for the comparative information and the opening statement of financial position at the date of transition.

**NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2010**

14. FIRST TIME ADOPTION OF IFRS (Continued)

The Company has applied IFRS 1 First-time Adoption of International Financial Reporting Standards (as revised in 2008) in preparing these first IFRS financial statements. The effects of the transition to IFRS on equity, statement of financial position, total comprehensive income and reported cash flows are presented in this section and are further explained in the notes to the financial statements that accompany the tables.

First time adoption exemptions applied

Upon transition, IFRS 1 permits certain exemptions from full retrospective application. The Company has applied the mandatory exceptions and certain optional exemptions. The exemptions adopted by the Company are as follows:

Mandatory exceptions adopted by the Company:

- a) The Company has used estimates under IFRS that are consistent with those applied under UK GAAP (with adjustment for accounting policy differences) unless there is objective evidence those estimates were in error

Optional exemptions applied by the Company:

The Company has not opted to apply any of the exemptions available under IFRS 1.

Reconciliation of Equity

Equity at the date of transition and at 30 June 2009 can be reconciled to the amounts reported under UK GAAP (the previous GAAP) as follows:

Under UK GAAP the Company did not report total comprehensive income. Total basic and diluted earnings/(loss) per share changes as a result of the changes indicated above. See note 4 for further information on earnings per share.

Notes to the reconciliations

a) Investments

The Company has elected to designate investments as 'fair value through profit or loss' under IFRS at the date of transition (see note 5). The investments are now measured at fair value. Under UK GAAP the investments were carried at cost less impairment charges. The effect of the designation is to increase investments' to 'fair value through profit or loss' by £4,039,502 at the date of transition and by £894,013 at 30 June 2009. The increase in fair value on transition have been included in the profit and loss reserve within equity.

b) Gains/(Losses) on investments at fair value through profit or loss

An impairment loss recorded under the previous GAAP in the period ended 30 June 2009 was reversed as a result of transition to IFRS. As at 30 June 2009, the loss on investments at fair value through profit or loss was £5,270,739 which consisted of actual fair value loss for the year £1,231,237 together with the reversal of the prior year fair value adjustment £4,039,502.

c) Statement of cash flows

Other than the change in cash flow headings, there are no material adjustments in the cash flow statement. The components of cash and cash equivalents under UK GAAP are similar to those presented under IFRS.

15. CONTROLLING PARTY

In the opinion of the Directors the Company does not have a controlling party.

16. EVENTS AFTER THE REPORTING PERIOD

On 26 July 2010, the Company acquired 1,290,322 ordinary shares in Argos Resources Limited for £401,000 and subsequently sold 90,322 ordinary shares for £56,744. At 1 October 2010 the current market value of the investment was £639,000 at 53.25p per share.

Following the year end, the Company sold 918,450 shares in Desire for total proceeds of £1,169,010 and purchased 444,450 shares for £623,786. At 1 October 2010 the current market value of the investment was £4,944,000, at 154.50p per share.

At 1 October 2010 the market value of the investment in Sterling had dropped by £1,177,000 to £1,001,250 at 66.75p per share. The reduction in value resulted from an announcement by Sterling in September 2010 regarding the disappointing findings by the Sangaw North #1 Exploration Well at 2,395 meters.

NOTES

- (i) A member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and, on a poll, to vote in his stead. Such proxy need not be a member of the Company.
- (ii) A Form of Proxy is enclosed which, to be effective, must be completed and deposited (together with the power of attorney or other authority, if any, under which it is signed or a copy thereof certified notari ally) with Capita Registrars (Jersey) Limited, 12 Castle Street, St Helier, Jersey JE2 3RT, Channel Islands by Wednesday 10 November 2010. Completion and return of the Form of Proxy does not preclude a shareholder from attending and voting in person at the meeting.
- (iii) The Company, pursuant to the Companies (Uncertificated Securities) (Jersey) Order 1999 and its articles of association, specifies that only those shareholders holding consolidated ordinary shares of 20p each in the Company and entered on the register of members of the Company as at 11.45 am on Wednesday 10 November 2010 shall be entitled to attend or vote at the aforesaid meeting in respect of the number of such shares registered in their name at that time. Changes to entries on the relevant register of securities after 11.45 am on Wednesday 10 November 2010 shall be disregarded in determining the rights of any person to attend or vote at the meeting.
- (iv) In accordance with paragraph 14.17 of the Listing Rules, an explanation regarding the special business to be conducted at the meeting, and complying with the requirements of paragraph 15.4 of the Listing Rules, is incorporated in the directors' report on the Company's financial statements for the year ended 30 June 2010.

ANNEXURE 1 TO NOTICE OF MEETING

Special Resolution authorising the purchase by the Company of its own shares

IT IS RESOLVED THAT:

In renewal of the existing authority under Article 57 of the Companies (Jersey) Law 1991, as amended, the Company be and is hereby generally and unconditionally authorised, pursuant to and in accordance with such Article 57, to make purchases on a stock exchange of fully paid consolidated ordinary shares of 20p each of the Company (“**Ordinary Shares**”) provided that:

- (a) the maximum number of Ordinary Shares which are authorised to be purchased shall be such number as represents 10 percent of the aggregate nominal amount of the Company’s issued consolidated ordinary share capital as at the date of this Special Resolution;
- (b) the minimum price which may be paid for any such Ordinary Share (exclusive of expenses) shall be the nominal amount of the Ordinary Share purchased; and
- (c) the maximum price (exclusive of expenses) which may be paid for any such Ordinary Share is an amount equal to 105 percent of the average of the middle market quotations as derived from the Official List for such Ordinary Shares for the five business days immediately preceding the date of purchase,

such authority to expire on 31 December 2011, unless previously revoked, varied or renewed by the Company in general meeting, save that the Company may at any time prior to the expiry of such authority enter into a contract or contracts to purchase such Ordinary Shares under such authority which will or might be executed wholly or partly after the expiration of such authority and may make a purchase of such Ordinary Shares in pursuance of any such contract or contracts. Such authority pursuant to this Special Resolution will allow the Company to buy back Ordinary Shares only for cancellation.
